

**Modification to Meeting Notes Referencing
DRAFT**

A) The Russian River Watershed Protection Committee

B) Role of Brenda Adelman in Sonoma County Salmonid Coalition Meetings

In past meeting notes, the Sonoma County Salmonid Coalition referenced that the *Russian River Watershed Protection Committee* was a participant/member in the Coalition's conservation efforts. Brenda Adelman has asked that she be listed as an observer, and no reference made to the *Russian River Watershed Protection Committee*.

Further, she asks that references to her participation at the meeting in which the Mission Statement for the Salmonid Coalition was decided upon be amended to note that she was an observer.

To preserve the integrity and transparency of the process, the notes will not be amended to expunge references to the *Russian River Watershed Committee* or the status of Ms. Adelman's participation. The request will however be honored by this modification.

At such time that the *Russian River Watershed Protection Committee* or Ms. Adelman wants to change their status from observer to participant, that change will be noted to Sonoma County Salmonid Coalition participants and posted on the SCWA website.
